MEMORANDUM FOR THE RECORD

Morning Meeting of 27 December 1966

DDCI was in the chair.

Godfrey reported that the weekend was generally quiet. He called attention to extensive coverage in this morning's New York Times on bomb damage to nonmilitary installations in North Vietnam.

Godfrey noted a series of four bomb incidents in Amman, probably the result of Palestinian terrorist organizations. He said there has been no reporting from Cairo on the Arab Defense Council after Friday's abortive meeting. It therefore seems possible that concern over the amount of pressure which the Council might generate against Hussein was overdrawn. He noted that the Bahamian situation has quieted down

DDCI complimented the Operations Center on the reporting of intelligence over the weekend. Godfrey added that weather conditions necessitated that two of the weekend watches stand twenty-four-hour shifts.

Kent said that he has not yet heard from the State Department on new terms of reference for last Friday's SNIE. DDCI suggested that Kent inquire sometime today in order to avoid a crash project over the weekend if possible.

DD/S felt that the snow-clearing system at Headquarters worked well. He reported on the successful handling of a request from
